Floor nozzle		EasyFix

■ Included in the scope of supply.

SC 2 Upright EasyFix, 1.513-345.0, 2025-11-30

[1] Through spot cleaning using the Kärcher steam cleaner, i.e. steaming for 30 seconds on the maximum steam setting in direct contact with the surface to be cleaned, 99.999% of enveloped viruses such as influenza viruses (except the hepatitis B virus) can be eliminated on most smooth, hard surfaces in the house (test germ: modified vaccinia Ankara virus). [2] When cleaning at a cleaning speed of 30 cm/s using the maximum steam setting and with direct contact with the surface to be cleaned, 99.99% of all common household bacteria on common smooth, hard household surfaces are killed (test germs: Enterococcus hirae).

Preset steam flow control in 2 stages for cleaning different surfaces

- Selection options of floor covering symbols for wood or tiles to set the ideal steam flow.

Slimline product design and floor head with swivel joint

- Ergonomic, effective cleaning with full floor contact, regardless of the user's height, thanks to the flexible nozzle joint.

Non-stop steam and integrated descaling cartridge

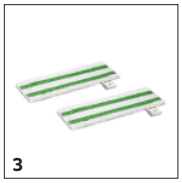

- Thanks to the intelligent descaling cartridge, limescale is removed automatically from the water.
- The removable tank is easy to fill at any time – for continuous steam without interrupting your work.
